PROFESSIONAL SUMMARY

Digital Business student and full-stack/backend developer with hands-on experience across Python, JavaScript/TypeScript, Flask, React, Next.js, React Native/Expo, and Supabase. Co-founder of a student-focused startup. Experienced in Japanese work environments with fluent English and business-level Japanese. Seeking a backend or full-stack developer role in Japan.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java

Frontend: React, Next.js, HTML5, CSS, TailwindCSS

Mobile: React Native, Expo

Backend: Flask, Hono, Cloudflare Workers, REST API Development

Database: SQLite, Supabase, JSON

Tools & Technologies: Git, GitHub, Figma, Playwright, Responsive Design, API Integration, AI & Machine Learning

PROJECTS

Hadith One (Mobile + API) | *TypeScript, React Native, Expo, Hono, Cloudflare Workers, SQLite, i18n*

- Cross-platform reading app (React Native/Expo) with home, library, favorites, and English/Bangla support.
- Built local hadith notifications, offline-first caching with encrypted SQLite, and a Hono REST API on Cloudflare Workers (D1 + Drizzle) serving ~15k sahih hadiths.

Expense Tracker Web App | *Python, Flask, HTML, CSS*

- Full-stack expense tracking system with expense monitoring, data management, and a responsive UI.

Portfolio Website | *React, CSS, JavaScript, JSON*

- Modern responsive portfolio site focused on clean UI/UX and performance.

Beauty Scanner | *Python, Node.js, MediaPipe, TypeScript*

- Face-scanning tool that detects skin tone and suggests matching shades, with backend image/face processing.

Job Analyzer | *Python, React/Vite, FastAPI, Google Gemini, PostgreSQL (Supabase), Playwright, JWT/OAuth*

- Full-stack web app that scrapes Japan tech job boards (Mynavi, CareerCross, Wantedly, GaijinPot) and ranks listings against an uploaded resume using Google Gemini.
- Built JWT/Google sign-in, PDF/DOCX resume parsing, and skills-gap analysis with a ranked dashboard; deployed frontend and FastAPI backend on Vercel with Postgres on Supabase.

EXPERIENCE

Co-Founder — BSc Rovierr Jan 2025 – Present

- Built a platform helping Bangladeshi students with studying abroad; managed operations and communication.

English Instructor & Team Leader (Part-time) 2023 – Present

- Conducted English sessions for Japanese students across multiple schools and organizations.
- Led activities and teams in fast-paced environments, building strong cross-cultural communication skills.

EDUCATION

Tokyo International University — Bachelor's in Digital Business and Innovation Sep 2023 – Aug 2027

- Scholarship: 80% Tuition Reduction, JASSO Scholarship.
- Relevant Courses: Python, AI & Machine Learning, Networking, Data Science, Big Data and AI, R Programming.
